Product Description

Icom IC-F2000 VHF Professional & Commercial Series

5 Watts Hand Set

UHF Commercial Transceiver

The IC-F1000/F2000 Series is a compact portable radio series with convenient features such as a built-in motion sensor, channel announcement function, loud audio and a rugged waterproof & dustproof chassis. The radio is ideal for a wide range of businesses such as those involved in the education, hospitality, retail, and facility management sectors.

IP67 Waterproof and Dust-tight Protection

The IC-F1000/F2000 series has a 24.5mm slim depth with IP67 waterproof casing. The transceiver can withstand 1m depth of water for 30 minutes. Its dust-tight construction prevents the ingress of powder dust, sand, mud and other objects.

6 versions Available

The IC-F1000/F2000 Series is available in VHF (IC-F1000) and UHF (IC-F2000). VHF

and UHF versions each have three different interface options to suit different customer requirements. They are:

- No display – IC-F1000 (VHF) /IC-F2000 (UHF)
- Display with 4 keys – IC-F1000S (VHF) /IC-F2000S (UHF)
- Display with full DTMF keypad – IC-F1000T (VHF) /IC-F2000T (UHF)

Built-in Motion Sensor

With a built-in motion sensor, the IC-F1000/F2000 series can detect its position, state of motion and non-motion and can send an emergency signal. The motion function detects if the transceiver is moving or shaking, for example, during a chase. Lone worker and man down functions are programmable.

Easy to Hear in a Noisy Environment

The large 36mm speaker of the transceiver provides clear companded 800 mW* audio. The built-in BTL amplifier doubles the audio output power and delivers loud and intelligible voice to a radio operator working in noisy environments.

* Typical with internal speaker

Inversion Voice Scrambler

The built-in inversion voice scrambler provides secure conversation. Up to 16 codes are selectable.

14 Hours of Operating Time with Supplied Waterproof Battery

The supplied waterproof Li-Ion battery pack, BP-279 (7.2V DC, 1485mAh), provides 14 hours* of operating time.

* tx:rx:standby=5:5:90. power save function on.

Quiet Stand-by and More

The IC-F1000/F2000 series has built-in 2-Tone, 5-Tone, CTCSS and DTCS signalling capabilities for group communication and selective calling.

Channel Announcement

When you rotate the channel knob, the radio announces the channel number. Convenient for making radio adjustments without having to look at the radio.

Other Features

- 8 DTMF autodial memories
- BIIS PTT ID and emergency call

- “Shift key” function increases number of programmable key assignments
- Surveillance function
- Escalating alarm
- Optional HM-168LWP, waterproof speaker-mic
